Places et présences du saxophone dans le rock

Arsène Ott (Contact : ao.cim@gmail.com)

Cette sélection musicale est le pendant de la sélection *Sax'n'rock* (document séparé) où l'on retrouve une grande partie[1] des titres musicaux choisis ici, mais classés cette fois-ci au nom prénom – nom des saxophonistes.

Le classement se fait ici par nom du groupe ou du musicien (entrée au prénom – nom du musicien pour suivre la logique de présentation de la playliste *Sax'n'rock* sur Spotify).

Playlistes

Sax'n'rock (310 titres) créée sous Spotify :

[1] En grande partie... car il ne m'a pas été possible d'identifier le nom de tous les saxophonistes présents dans les enregistrements qui suivent.

Le fil qui lie le saxophone au rock est fait, comme souvent dans l'histoire de la musique, d'une multiplicité de connivences, de complicités, d'amitiés, de fidélités, de rencontres fortuites, de reconnaissances, d'hommages, de décalages, de provocations, de revendications…, voire de fourvoiements.

Les présences du saxophone pourront être tour à tour sentimentales, sensuelles, organiques, naïves, arrogantes, expressives, excessives, suggestives, fragiles, hésitantes, trébuchantes, abstraites..., etc.

Le saxophone s'invite dans le rock avec l'originalité de ses growls, de ses slaps ou de ses harmoniques, avec les phrasés uniques et les sonorités singulières des instrumentistes, avec toute la palette de timbres, de textures ou d'effets de masses sonores qu'il peut offrir. Il y prend place en épousant et détournant les mélodies, en labourant les riffs, en s'insinuant dans les arrangements orchestraux, en se prêtant à tous les effets ou bidouillages sonores.

Le Sax'n'rock s'exprime aussi dans la promiscuité des genres, les télescopages stylistiques, fruit du hasard des tournées ou des sessions d'enregistrement.

Plusieurs saxophonistes seront familiers aux amateurs de jazz (Brandford Marsalis, David Sanborn, John Zorn, Lol Coxhill, Michael Brecker, Ornette Coleman, Sonny Rollins, Stan Gets, Wayne Shorter..., etc.), mais la majorité d'entre eux sont viscéralement liés au rock. C'est sur cette terre qu'il ont gagné la notoriété, que ce soit sous leur propre nom (Bill Justis, Blurt, Boots Randolph, Daniel Flores, Junior Walker, King Curtis, Red Prysock..., etc.) ou par le biais d'un groupe de rock comme cela a été le cas pour Andy MacKay, Chris Karrer, Chris Moore, Dana Colley, Dick Heckstall-Smith, Gareth Sager, Ian McDonald, Steven Brown, Terry Edwards..., etc. D'autres sont restés dans l'ombre des étoiles qu'ils contribuaient à faire briller, contribuant ainsi à l'épiphanie de bien des morceaux de rock.

Les fulgurances de ces saxophonistes sont noués dans le fil continu d'une écoute musicale (playliste - **Sax 'n' rock**). Je pensais au départ ne retenir que 20 à 30 titres, aujourd'hui j'ai pu rassembler plus de 310 références interprétées par près de 90 saxophonistes différents. La liste est évolutive et reste ouverte à vos suggestions. J'espère qu'elle produira sur vous le même effet d'aspiration qu'elle a pu avoir sur moi, vous transportant d'une écoute à l'autre, afin de prendre au fur et à mesure conscience de la diversité de jeu, de timbre, d'expression de tous ces saxophonistes. Chaque nom de groupe ou de saxophoniste pourra être également vu comme une bifurcation à l'intérieur d'une gare d'aiguillage où il vous appartiendra d'inventer de nouveaux chemins et de créer vos propres préférences.
Merci dès à présent à Stanislas Chapel qui, lors des RNBM[2] de Rennes, a ouvert cette sélection à de nouveaux horizons (Tuxedomoon, Pop Group, Blurt..., etc.).

Mode d'emploi

Rock est entendu ici dans son sens le plus large, allant de la naissance du Rock'n'roll à la pop music et à tous les sous-genres associés rock psychédélique, glam rock, hard rock, rock progressif, punk rock, Électro-rock.

Certaines références « trans-genres » ont été maintenues dans la liste, soit parce qu'il me semblait qu'elles étaient difficiles à écarter du fait par exemple de la collusion entre le R&B et le rock naissant entre autre, soit parce qu'elles expriment le caractère subjectif propre à toute sélection, je me suis permis ainsi quelques écarts ou clins d'oeils. Afin de les rendre visibles je les ai signalées en caractères violet.

A de très rares exceptions près les musiciens qui se sont exprimés dans les genres voisins et/ou cousins du rock tels que le reggae, le blues, le funk, la soul et bien sûr le jazz ont été écartés de la sélection.

Dans cette sélection vous trouverez, à chaque fois que c'était possible, des liens vers :

- Une playliste **Sax 'n' rock** (Spotify) qui intègre la majorité des morceaux de musique proposés ;
- Des vidéos musicales sur Youtube ;
- Les descriptions musicales des morceaux de musique, des albums ou des musiciens. Piochés la plupart du temps dans http://fr.wikipedia.org/wiki/Portail:Musique ou dans http://www.allmusic.com/.
- Les saxophonistes qui ont fait carrière sous leur nom ou ont été les membres fondateurs ou historiques d'un groupe de rock, sont signalés en encre verte.
